

Amin Ansari

Back-End & Full-Stack Developer · C# / .NET · Node.js · React / Next.js

Rasht, Iran (Remote) | +98 902 150 0458 | 3carin@gmail.com | linkedin.com/in/amin-ansari-33a323162 | devansari.ir

SUMMARY

Back-end developer with 5+ years of building APIs and data-heavy systems in C#/.NET and Node.js — from hospital software to multi-tenant SaaS and online stores. I build the front end too — responsive React, Next.js and SvelteKit interfaces, admin dashboards and storefronts — so I can take a product from database and API to the screen, and ship it with Docker, CI/CD pipelines and Linux servers I set up and maintain myself. I care about clean, documented code and systems that keep running.

SKILLS

Back-End	C#, ASP.NET Core / .NET 8, Entity Framework, REST APIs, Swagger/OpenAPI, Hangfire, Node.js, NestJS, TypeScript, Onion Architecture, Domain-Driven Design, JWT/OTP authentication
Front-End	React, Next.js (App Router), SvelteKit, TypeScript, JavaScript, Tailwind CSS, Framer Motion, responsive & RTL (Persian) UI, admin dashboards, SEO & performance
Data	PostgreSQL, SQL Server, SQLite, Redis, Meilisearch, Drizzle ORM, TypeORM, schema migrations
DevOps	Docker, Docker Compose, Kubernetes, Linux server administration, Nginx, Traefik, Caddy, CI/CD pipelines (GitHub Actions, GitLab CI), automated deployments, backups & restore
AI	LLM chatbot integration in production products, AI-assisted development with Claude Code

EXPERIENCE

Full-Stack Developer (Freelance) — Chicken Garden Restaurants (chicken-garden.ir) Jun – Jul 2026

- Built the restaurant website and a QR-based electronic menu, with an admin panel for multi-branch management and role-based access.

C# Back-End Developer & Project Lead — Salmej (Pezhvak Shogun Avar Parsi), Tehran Apr 2023 – Aug 2025

- Designed the business back end from scratch as a .NET 8 Web API (Onion Architecture, DDD), fully documented with Swagger.
- Designed a multi-tenant database serving the company's sub-businesses; led the development team from requirements to release and support.

Full-Stack Developer (Freelance) — Oil-ino (oil-ino.ir) Oct 2023 – Oct 2024

- Built an aviation-products store with a C# back end and Next.js storefront: catalogue admin, live USD-rate pricing, sign-up verified against the national civil registry, and an LLM chatbot.

C# Back-End Developer → Team Lead — Micfava / Qeshm Health Processing, Rasht Dec 2020 – Apr 2023

- Developed and maintained SEPAS (online electronic health record submission) and the hospital information system (HIS) for insurance and treatment management.
- Built the Social Security social-work project and an online business-forms system; later led the team and the Sepas Dashboard redesign.

Web & Game Developer — Sampad (NODET) 2018 – 2020

- Built the web platforms for the 13th and 14th Sampad events; won Best Game and Best Application of the Year.

SELECTED PROJECTS — live, more on devansari.ir

- arvak.ir** — Persian store builder (SaaS) for Instagram sellers: multi-tenant shops on subdomains, wallet billing and per-shop SEO. SvelteKit, PostgreSQL 17, Drizzle, Redis, Meilisearch; Docker Compose behind Traefik/Caddy, GitHub Actions pipelines with staging → production promotion, scripted server setup, backups and monitoring.
- blusell.com** — Marketplace platform: NestJS + PostgreSQL API with OTP/JWT auth and role-based access, plus a Next.js admin dashboard.
- oil-ino.ir** — E-commerce for aviation products: C# back end, Next.js storefront, live pricing and an LLM chatbot.
- chicken-garden.ir** — Restaurant website and QR e-menu with multi-branch admin.
- pirokköln.de** — Bilingual (German/Persian) site for a Persian pastry café in Cologne: digital menu and WhatsApp ordering. Next.js.
- sps2021.de** — Website for a security company in Düsseldorf, NRW. Next.js, served behind Cloudflare.
- devansari.ir** — My portfolio: Next.js + ASP.NET Core + SQLite, server-rendered in English and Persian, shipped with Docker Compose and Nginx.

EDUCATION

B.Eng., Computer Software Engineering
Islamic Azad University · 2020 – 2024

LANGUAGES

Persian — native
English — professional working proficiency
German — B1
